

HELPING HANDS

"The simplest acts of kindness are by far more powerful than a thousand heads bowing in prayer."
— Mahatma Gandhi

July 2025

Dear Parent,

Helping others creates a sense of **peace, pride, and purpose**. Instilling the habit of giving from a young age helps children understand the importance of supporting those in need and strengthens society as a whole.

In 2013, TGES students began contributing ₹1 per day to support their underprivileged peers. This simple act of kindness grew into *HELPING HANDS*—a school-wide initiative that fosters empathy and encourages community support.

Please encourage your ward to earn **points** for positive actions, such as helping at home, displaying good behaviour, and studying regularly. These points can be converted into money as reward and saved in homemade piggy banks made from materials like Surf Excel boxes or clay pots.

Parents play a key role in encouraging and supporting this initiative by recognizing their children's efforts, helping to track reward points, and guiding them in managing their savings. Your involvement reinforces the values of empathy and responsibility at home.

In **November**, children will bring their piggy banks to school on Children's day as a gesture to support their underprivileged peers. The collected funds will be donated to schools for underprivileged children in Telangana, run by the **Rural Development Foundation (RDF)** on the **Annual Day**. [Website: <https://rdfindia.org>]

Let's nurture generosity and guide our children to become compassionate global citizens.

Thanks & Regards,

Roshni Ramachandran
Headmistress,
The Global Edge School, Vasanth Nagar
